Chicken et all bength, 125 feetto 21. Sixter above roof of drift, and backen the man to 4th level at a disto be a test from the short.

height, about 5 feet above roof of drift. Seventh level-raise commenced 20 feet south of shaft.

The vein in the lowest workings was wider than usual, and possessed good walls. At the 7th level it was 7 feet wide at the shaft, although narrower in the drifts! At the end of the crosscut, at a depth of 452 feet, the width was 6 feet, and at the 8th level, 7 feet 8 inches, with good walls and selvage on hanging. At the ends of the drifts in the 8th the vein was narrower. In writing of recent developments ranging from 4 to 6 feet. The ore and gold production at the Black averaged about 87 per ton. The mine Eagle mine, in the first few issues looked very encouraging, therefore, at after the old Regins had changed the lower levels, the vein being much

The mill was composed of 7 Tremane stamps, jigs and Berdan pans. An endeavor was made to obtain a plant which would treat a considerable quantity of ore and could be installed at a minimum of expense. It is well the Black Eagle to be, can produce thing for bedrooms in plain and dainty spray patterns; the Black Eagle to be, can produce known that Tremaine mills are much plain and dainty spray patterns; frilled, at \$2.50 and \$3.50 per pr. capacity a Tremaine 2-stamp mill is claimed to be equal to a gravity bat tery of 5 stamps, crushing from 10 to In tons per 24 hours. But this capecity was not obtained at the Regina. From 40 to 50 tons per 14 hours seemed to have been the best results that could be obtained from the 7 mills, or dition of the underground workings 14 stamps, which had been installed there. There was always a considerable amount of trouble in keeping the

There was also a cymanide plant on At the 8th level the north drift was 85 the property, and this has not been HUDSON'S BAY STORES feet in length, and the south 120 feet, removed as it will migstlikely be found At a depth of 452 feet a crosscut had to be in good condition. The Trebeen driven east 18 feet, cutting the maine mills were discarded however, vein, which at the 7th level dips into and gravity stamps substituted. the hanging wall. At the bottom of There have been several other improvethe shaft the s h level was established ments made in the milling plant de with assenting north 18 feet passe tails of what would take up too much

Gold Industry May be Augmented by the Production of these Metals.

The merchants of Rat Portage as vell as those immediately engaged in he mining industry, have every reason for their present sanguine feeling regarding the condition of things generally in the gold fields. The Mikado mine, which since the present management have been in charge, has gained the name of "Old Faithful," so regularly do the gold bricks arrive, is Light Company to take the hearingelooking splendid, and large reserves of ment in British Calumbia of pasted! ore, promising years of steady running, ing machinery concern. Mr. McCroare being exposed, by persistent and san is advertising his house and effects, dogged development work. The Black Eagle, now that it is under intelligent supervision, has taken a position among the big producers of the district and bids fair to rise ere long to a premier position among Lake of the Woods mines. The Sultana under Mr. Strong's management is being proved up in such a manner by the exposition of immense ore bodies that it will soon have to be compared to something greater than has been, even in this district, to adequately and intelligent ly convey an impression of the vast wealth that is stored away under the hills on Baki Indian bay.

In addition to the bright condition of the gold industry a new factor, sone one that will cause a great deal of excitement this year, is the discovery during the last few months of place! num and tin by different prospertings. Mrs. Higher and Mr. Majoritiv and parties. The Engineering and Mining repeat the dust office it of, No. Syen. Journal of New York, which has bud next Smalay microme of the Taken samples of platinum submitted with model by special request, has published several articles on the new discoveries in Lake of the Woods, and bas considered the matter of such | interest as to copy details of the Gids. from this paper. The samples of the ore have been submitted to Mr. Theo. Breidenbach, M.E., who destraid Millio Dollar Corporations without hesitation that the specimens were rich in tin. Where these local Boiled Down into Rendals. tions are, however, remains a seriel until the prospectors get their surveys. mode, but Mr. Moore goes so but as to state that his tip discovery is met antside the city limits.

Where these took Boiled Down into R 28 ! tions are, however, remains a secret until the prospectors get their surveys made, but Mr. Moore goes so far as to state that his tip discovery is just but side Um city limits.

In this article we have only tenched on the producing mines in the vicinity of Rat Portage, leaving out mention of working prospects, many of which ed from the gall at Sault Sto. Marie, are down over a mindied feet, and employing many miners. We also baye until another time the discussion of the operations in Maniton, Sturgeon torday, Conadi are visible opening half lake and other districts.

ADJOURNED HOSPITAL MEETING.

The adjourned annual meeting of the hospital board was held last night in the council chamber. The principal business was the election of eight direcors to the board, the five receiving the highest number of votes for a term | John A. Voepel, aged 35, 36, No. of three years and the other three for York, is charged work withing his a period of one year. Mesers, J. E. Young, W. J. Adams, D. H. Currie, Wm, Pitts and Wm. Metarthy were elected for three years, and T. R. Ferguson, G. W. Fullerton; and G. H. Kelly for one year.

The other members of the board are Messis D. C. Cameron, Judge Chapble, W. Margach, R. Thoropson, J. P. Eurogey, M. Nicholson, C. W. Belven and D.A. Pender, making sixteen m

At the meeting held two weeks ago it was thought advisable to reduce the number of directors but on reterring to the by-laws it was found impossible to do so without giving notice of motion which was accordingly done last night and the board will probably be reduced next year.

The meeting also expressed in hearty appreciation of the work of th matron and nurses during the year.
